

Environment and Sustainability

Position Statement

Introduction

yourtown is committed to providing innovative quality programs and services that support young people and their families, especially those who are marginalised and without voice.

We acknowledge that our operations have an impact on the environment and will ensure that we maintain and adopt practices to minimise this impact.

yourtown's Position

yourtown will abide by relevant environmental legislation, standards and codes of practice.

We will promote and implement practices aimed at reducing the consumption of materials, natural resources and energy.

We aim to purchase and use environmentally safe and sustainable resources in our operations.

Our waste management practices will aim to be environmentally sound and encourage the re-use or recycling of materials where possible.

yourtown will endeavour to implement sustainable design principles in land-usage, landscaping, building planning and construction.
